Reply-Comments of Arnold Pavlik, Jr.

As a long time Ham Radio operator and a subscriber to Popular Communications, I have been following with interest the petition "FCC RM-9242.

Vast improvements in receiver design over the years should allow the use of the 2<sup>nd</sup> and 3<sup>rd</sup> adjacent channels to existing stations without causing interference. Therefore I feel that these channels should be made available for use by LPFM stations. I also feel that this petition be passed at the maximum power requested to make these new stations economically feasible.

As a resident of a rural community, it would be refreshing to listen to a "local" station with items of interest to our small town.
